Mestrado Profissional em
Ensino em Ciências da
Saúde e do Meio Ambiente
UniFOA

PRESENTATION

This Didactic Sequence was created as educational material that is part of the Master's Research produced within the scope of the Professional Master's Program in Teaching Health and Natural Environmental Sciences - UniFOA. The objective is to present the Didactic Sequence, as a methodological strategy inserted in a Virtual Learning Environment (VLE), to help Physical Education teachers in basic education.

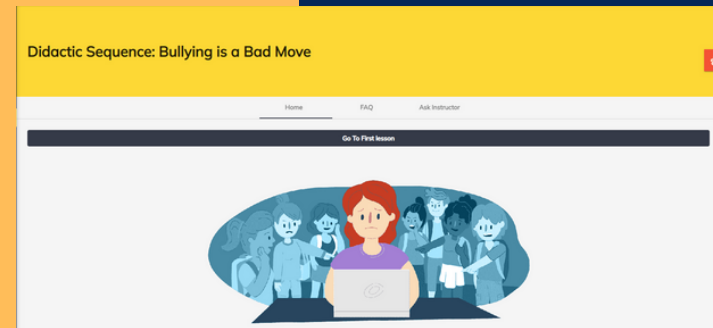

KNOW THE PRODUCT

WHAT IS A DIDACTIC SEQUENCE?

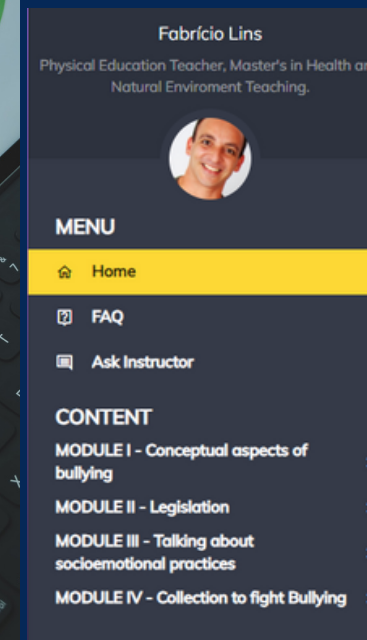

Zabala (1998) reinforces that a didactic sequence is a result of establishing a series of learning activities with an internal order, having the didactic intention of rescuing the previous impressions that students keep about a fact.

WHAT IS A VIRTUAL LEARNING ENVIRONMENT (VLE)?

It is understood as the set of paths, strategies, components and support materials within the digital space that directly enables the interaction and appropriation of educational content for the acquirement of knowledge that generates solid concepts for students in a certain knowledge area.

PRODUCT STRUCTURE

1st Module
Conceptual aspects of
bullying
